

SMART MONITORING

Your Business is Safe in Smart Hands

Our History

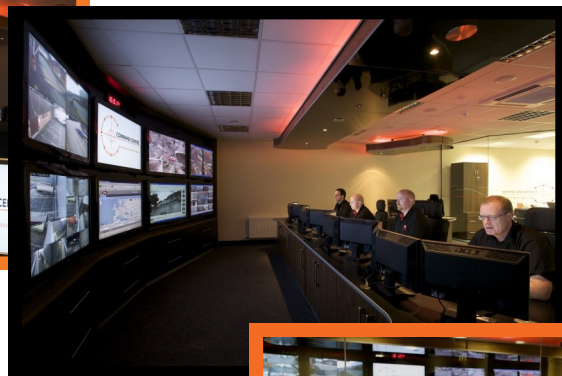

Smart Monitoring moved to Irelands latest purpose built control room in March 2010. The control room has been in operation since 2007 under the Goldforce brand, keeping homes and businesses secure 24 hours a day 365 days a year. Our controllers are trained to the highest level, with our supervisors sharing over 60 years in the security industry. The company is 100% Irish owned, and all services are permanently based in Ireland.

Smart Monitoring Services

Smart Monitoring offers a range of monitoring services to both the domestic and commercial sectors in Ireland. Our wide range of clients enjoy a reliable and professional service, with tailored solutions to match their exact requirements. Our services include Intruder & Video Verification, Live Video & Audio Detection, Instant Panic Alarm Protection, Video Guard Tours, Gate Opening/Closing Services, and Remote Companion Services. We also offer Personal Tracking services such as Anti-Kidnap & Man-Down Alerts.

Smart Monitoring Control Room

Smart Monitoring hosts Irelands most technically advanced security control room, always providing a rapid and accurate response to your security issues. The control room is dedicated to continually evolve with the latest technology as available within the security industry. As technology grows, Smart Monitoring will also grow, and continue to offer the very best services to you. For total peace of mind, our control room and our services are available for private viewings. Not only can we assist in system design to suit your individual requirements, but you can enjoy live demonstrations in our interactive boardroom. You will leave our control room with a complete understanding of how Smart Monitoring is going to protect you, your staff, and your business.
